Abstract

The recent international events had a large impact on the aviation sector because of several reasons. This documentation is all about the user interface wireframe, here the home page of our flight fare prediction project is explained with proper input.

1. Web Interface

- Our web page is an interface where input is taken from the user and the prediction is displayed.

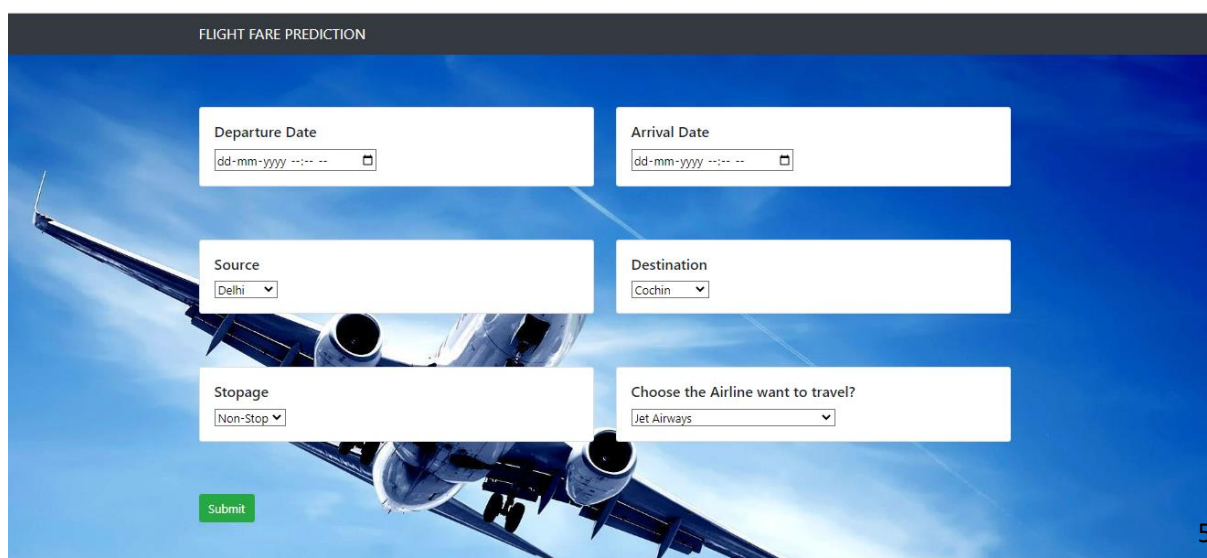

The screenshot shows a web interface titled "FLIGHT FARE PREDICTION" with a background image of a commercial airplane in flight. The interface contains several input fields and a submit button:

- Departure Date:** A date input field with a placeholder "dd-mm-yyyy --:-- --" and a calendar icon.
- Arrival Date:** A date input field with a placeholder "dd-mm-yyyy --:-- --" and a calendar icon.
- Source:** A dropdown menu with "Delhi" selected.
- Destination:** A dropdown menu with "Cochin" selected.
- Stopage:** A dropdown menu with "Non-Stop" selected.
- Choose the Airline want to travel?:** A dropdown menu with "Jet Airways" selected.
- Submit:** A green button located at the bottom left of the form area.

2. User Input

- Whenever the user hits our url, they first see the user input page here they have to provide the information like:
 - Every user input has its own dropdown where the user can select their input.
 - After providing the required input and pressing the submit button, the page refreshes and displays the output

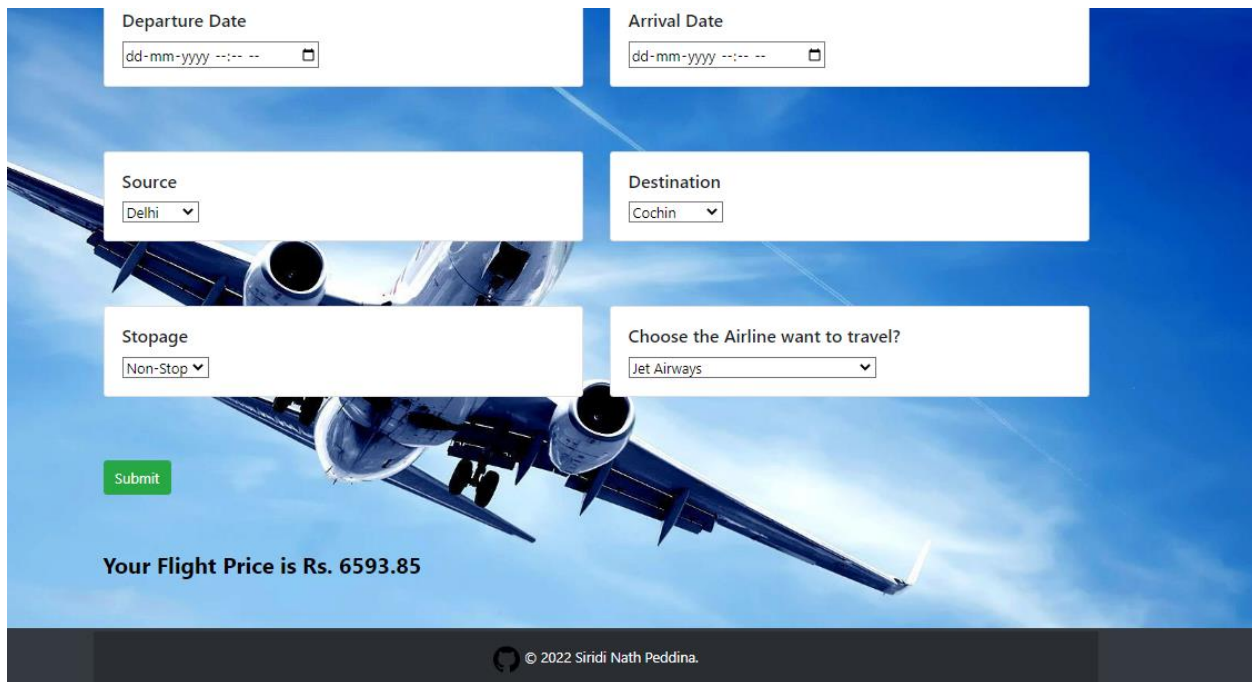

This is a duplicate of the screenshot above, showing the "FLIGHT FARE PREDICTION" web interface with the same input fields and submit button. The background image of the airplane is also present.

3. Result Page

After the user hits the submit button the page gets refreshed and the results are being displayed in the highlighted area in the above frame.

The user can refill all the inputs in the same page and get the results in the same way.

The screenshot shows a flight booking interface with the following elements:

- Departure Date:** A date input field with a placeholder "dd-mm-yyyy --:-- --" and a calendar icon.
- Arrival Date:** A date input field with a placeholder "dd-mm-yyyy --:-- --" and a calendar icon.
- Source:** A dropdown menu with "Delhi" selected.
- Destination:** A dropdown menu with "Cochin" selected.
- Stopage:** A dropdown menu with "Non-Stop" selected.
- Choose the Airline want to travel?:** A dropdown menu with "Jet Airways" selected.
- Submit:** A green button.
- Result:** "Your Flight Price is Rs. 6593.85"
- Footer:** "© 2022 Siridi Nath Peddina."
